Chief, XI

Operations/ALDAY/BAKE/K []

Persons/FARAS (born 21 December 1918, Yop, Hungary)
et al.

REF: ROMA 11279, Attachment A, 10 February 1958

1. Action requested: see para 3.

2. For file purposes, Headquarters would like to be able to distinguish between the several and various Persons FARAS'. In connection with Subject, there are three separate individuals with the same name whose identity is often confusing:

a. Person FARAS (C []), born 21 December 1918 at Yop, Hungary) is the associate of General KLEMENTI and has long been associated with URS-195.

b. Person Salomon Loran FARAS (C []), born 2 December 1913 at Nagocent, Hungary) arrived from Budapest, in Vienna, on 19 April 1953 as an illegal border crosser.

c. Person FARAS (born in 1938 at Columbia, France is the nephew of Person FIKAS, the associate of General KLEMENTI ("a" above). FIKAS reported on this Person FARAS who attempted to penetrate his uncle for the AYK.

3. For reference, there is still some doubt as to the correct identity of the individual who visited [] in-laws at St. Wolfgang, Austria in October 1957 (ref. ROMA 29362, Att C, 12 November 1957).

DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCE METHOD EXEMPTION 3B2B
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2006

If, as [] says, it was the Ferenc FARKAS who is the co-worker of
Ger. Al TOLBERT, then it is the individual who was born 21 December 1914
at Var, Hungary. If, as the reference indicates, it was Ferenc Salomon
Bernard FARKAS, then: (a) the proper birthdate is 2 December 1923 at
Munkacs, Hungary, and (b) Ferenc Salomon Bernard FARKAS is now connected
with WPB-192 (unknown to Headquarters). If Headquarters is confused as to
the separate identities of these two 'Ferenc FARKAS', please advise and the
proper information will be included in the files involved. If Headquarters
is correct in assuming that the Dr. Wolfgang visitor was actually Ferenc
FARKAS (21 December 1914) and not Ferenc Salomon Bernard FARKAS (2 December 1923),
the proper corrections will be made to MM 29362 and reference where this
assumption is confirmed by WII.
